

MEDICATION AUTHORITY FORM

For students requiring medication to be administered at school

This form should, ideally, be signed by the student's medical/health practitioner for all medication to be administered at school but schools may proceed on the signed authority of parents in the absence of a signature from a medical practitioner.

- For students with asthma, Asthma Australia's School Asthma Care Plan
- For students with anaphylaxis, an ASCIA Action Plan for Anaphylaxis

Please only complete the sections below that are relevant to the student's health support needs.

If additional advice is required, please attach it to this form.

Please note:

- Wherever possible, medication should be scheduled outside school hours.

Medication required three times daily is generally not required during a school day – it can be taken before and after school and before bed.

Medication delivered to the school

Please ensure that medication delivered to the school:

- ✓ Is in its original packaging
- ✓ The pharmacy label matches the information included on this form

Supervision required

Students in the early years will need supervision of their medication and other aspects of health care management.

In line with their age and stage of development and capabilities, older students can take responsibility for their own health care. Self-management should be agreed to by the student and their parents/carers, the school and the student's medical/health practitioner.

Please describe what supervision or assistance is required by the student when taking medication at school (e.g. remind, observe, assist or administer):

Monitoring effects of medication

Please note: School staff **do not** monitor the side effects of medication and will seek emergency medical assistance if concerned about a student's behaviour following medication.
